Zakaria ZAOURI – Software Engineer

zazaouri@gmail.com · +212 612-470757 · LinkedIn/zakaria-zaouri · GitHub/ZrZakaria

Profile

Final-year Computer Engineering student at **ENSAK**, focused on software development, AI and machine learning. Experience in full-stack applications, REST APIs, data/computer vision and deployment. **Looking for a PFE/pre-employment internship in software development, available from February 2027.**

Education

Engineering Degree – Computer Engineering, ENSAK, Kenitra — 2022 – Present

High School Diploma – Physics and Chemistry, Fqih Lemrini High School, Sale — With High Honors — 2019 – 2022

Work Experience

PFA Internship – LIMS Development · *CNESTEN – Kenitra* — August – September 2026

- **Designed a modular full-stack architecture** to digitize the LIMS cycle: requests, reception, preparation, analysis and reports for the laboratories.
- **Developed REST APIs** with Spring Boot, JPA/Hibernate and PostgreSQL, including business validation, state transitions, traceability and Excel file management.
- **Collaborative work:** used Git and GitHub for version control and group collaboration.
- **Technologies:** Java 25, Spring Boot, Spring Security, JPA/Hibernate, PostgreSQL, Angular, TypeScript, Docker, Gradle.

Introductory Internship · *ABIRNET – Sale* · July 2025

- **UI/UX redesign** of the website on Figma: mockups, design system and UML modeling.
- **Development** of a responsive interface and a PHP/MySQL backend with protection against XSS and SQL injection.
- **Technologies:** HTML5, CSS3, JavaScript, PHP, MySQL, Figma, Particles.js, Swiper.js.

Key Projects

E-Commerce Platform – Full-Stack Web Application

- **Built** a Spring Boot 3 backend (JWT, Liquibase, PostgreSQL) and an Angular 18 SSR frontend (NX, Tailwind).
- **Integrated** Kinde OIDC authentication, Stripe payments, and an admin panel for product CRUD with image uploads.
- **Implemented** persistent cart management synced with server-side order creation and role-based route guards.
- **Technologies:** Spring Boot 3, Java 21, Angular 18, NX, Tailwind CSS, PostgreSQL, Stripe, Kinde, Docker.

ThinkBoard – Full-Stack Note-Taking App

- **Designed** a scalable RESTful API with full CRUD, Redis rate limiting (100 req/min) and HTTP error handling.
- **Developed** a React frontend with client-side routing, reusable components and deployment via GitHub CI/CD.
- **Technologies:** Express.js, Node.js, MongoDB, React.js, Tailwind CSS, Redis, Render.com.

Drone Detection – Real-Time AI Pipeline

- **Optimized** YOLOv8 through fine-tuning on a mixed dataset (75% long range / 25% short range) for multi-distance detection.
- **Implemented** real-time multi-object tracking (ByteTrack) with ID assignment and CSV export.
- **Built** a behavioral classification (normal, suspect, hostile) using a Kalman filter and polynomial regression.
- **Technologies:** Python, YOLOv8, ByteTrack, OpenCV, scikit-learn, Jupyter Notebook.

FoodLik – Android Food Delivery App

- **Developed** a food discovery and delivery Android application (Java): authentication, restaurant browsing with menus, cart management, order tracking and history.
- **Integrated** a REST API with Retrofit/GSON, Google Maps for restaurant location and delivery tracking, and Glide for image loading, within a fragment-based architecture (models, adapters, network).
- **Technologies:** Java, Android SDK, Material Design, Retrofit, GSON, Glide, Google Maps SDK.

Technical Skills

Programming Languages: JavaScript (ES6+), Python, Java, PHP, SQL (PL/SQL), C, C++, HTML5, CSS3.

Frameworks & Libraries: Spring Boot, Angular, React.js, Node.js/Express, Tailwind CSS, DaisyUI, YOLOv8, OpenCV.

Databases: PostgreSQL, MongoDB, Mongoose, MySQL, Oracle SQL.

Tools: Docker, Git/GitHub, NX, Stripe, Render.com, Postman, VS Code, Redis, Vite, Figma, Jupyter Notebook, Jenkins.

Achievements & Certifications

- **3rd Place – Web Development Competition** (Student Association Club – ENSAK).
- **Certifications (Udemy, 2024):** The Complete JavaScript Course, HTML & CSS, PHP Course.
- **Full Stack Web Development** – Amazon / Coursera (in progress).

Extracurricular Experience

Member – AFAAQ Student Association Club

- Participation in humanitarian initiatives and community service projects within the school and the community.

Soft Skills & Languages

- **Soft Skills:** Teamwork · Effective communication · Problem solving · Time management · Continuous learning
- **Languages:** Arabic (Native), French (Fluent), English (Fluent)
